

Appendix A: List of Questions in the Online Application to Support Eligibility Determinations for Enrollment through the Health Insurance Marketplace and for Medicaid and the Children's Health Insurance Program

Background

This document represents a full draft of questions and systems logic that CMS is developing for the online application. This document (the “questionnaire”) represents each possible item that may need to be asked for successful eligibility determinations. The questionnaire accounts for many different application scenarios: applicants may be applying for insurance affordability programs (e.g. Advanced Payment of the Premium Tax Credit, Medicaid, or CHIP) or just for eligibility to purchase a qualified health plan in the Health Insurance Marketplace.

The questionnaire contains all potential items that can be displayed on the online application. Items will be displayed depending on applicants’ household and income situations, so applicants won’t be required to complete this entire list of items. Most applicants will need to complete less than one-third of these items.

The online application is a dynamic process that’s tailored based on the application filer’s responses to questions and the electronic verification of data available during the application process. You can follow conditional logic through the italicized directions in the questionnaire—these wouldn’t appear on the screen.

For the purposes of this posting, we’ve provided headings for different sections and descriptions of the purpose of each section in “Notes to reviewers.” We’ve also provided an annotated outline at the beginning of the questionnaire.

The questionnaire doesn’t include help language, pop ups, or links to explanations, which we acknowledge will be critical to successful completion of the application for many people. We’ll be developing that text over the next several weeks.

To view demonstrations of the online application, see Appendix B.

DRAFT

I. My account

Note to reviewers: To access the Health Insurance Marketplace online application, the individual filling out the application must first set up “My account.” This account will allow for individuals to access or update their contact information, communication preferences, notices, coverage status, and other information in a secure environment. Part of the account creation and application processes is for the individual to establish their identity via an authentication process. This entails entering some personal information and answering a set of “challenge” questions. We aren’t providing the list of challenge questions in order to protect the security and integrity of the system. The individual is then able to initiate the application process from within “My account.” It’s possible some amount of additional authentication and consent steps may need to be taken during the application process depending on the individual’s household makeup.

The specific components of the consent language are still under review across the federal agencies, but the essence of the language will address the basic agreement to the retrieval and

use of their household's data for verifying information and making eligibility determinations and will include language that agreement is provided under penalty of perjury and understanding of potential prosecution for false information (similar to when a person signs and submits the application).

F. Authorized representative

Note to reviewers: The definition of an authorized representative and the procedures for identifying an authorized representative for purposes of filing an application are currently being discussed with federal agencies as part of pending policies on authentication and consent. Definitions of authorized representative are proposed in the Medicaid and Exchange sections of the ACA II proposed rule that CMS recently released. Thus, the definition is subject to change when this rule is finalized.

You can give a trusted friend or partner permission to talk about this application with us, see your information, and act for you on matters related to this application, including getting information about your application and signing your application on your behalf. This person is called an “authorized representative.”

2. Do you want to find out if [you/your family] can get help paying for health insurance?
 - a. Yes *(If selected, skip to section V [“Tell us how many people are applying for health insurance”].)*
 - b. No *(If selected, continue to B [“Income screener”], and go the non-financial assistance question sequence.)*

B. Income screener (Get help with costs) (optional)

Note to reviewers: The next two questions are only asked if the person checks that they don't want to apply for financial assistance in the item above. The idea is to capture a couple of items to assess whether it may be worth their time to apply anyway. These items serve the purpose of trying to promote the use of the financial aid application for people who initially may not think they qualify. These questions aren't an actual determination of eligibility.

Even working families can pay less for health insurance right now. You may be eligible for a free or low cost plan, or a new kind of tax credit that lowers your monthly premiums right away. Answer 2 questions to see if you can get a break on costs.

1. How many people are on your federal income tax return this year? (If you didn't file taxes last year, tell us how many people live with you, including yourself.)
 - a. ____
2. Based on your best guess, do you expect your total household income be less than [Equivalent to 400% of the federal poverty level in dollars for family size listed plus buffer] this year?
 - a. Yes *(If selected, display text below.)*

We encourage you to apply to see what help you can get paying for health insurance. Based on what you told us, you may be eligible to get health benefits or help paying for health insurance through the Health Insurance Marketplace. To begin the application, select “yes” on the next question.
 - b. No *(If selected, display text below.)*

Based on what you told us, your income may be too high to get help paying for health insurance. You can still get a good deal on insurance from the Health Insurance Marketplace, and you won't pay higher costs for pre-existing conditions.
 - c. I don't know *(If selected, display text below.)*

We encourage you to apply to see what help you can get paying for health insurance. We'll walk you through questions to find out what health benefits or help paying for health insurance you can get through the Health Insurance Marketplace. To begin the application, select “yes” on the next question.

3. Do you want to see what help [you/ you and your family] can get paying for health insurance?
 - a. Yes
We'll ask you questions about your income and personal situation to see how much you qualify for.
 - b. No
You'll answer fewer questions, but you won't get help paying for health coverage. *(If selected, go the non-financial assistance question sequence.)*

V. Tell us how many people are applying for health insurance

(Display section if household contact indicated that other family members want insurance/benefits.)

1. How many people in your family and household want health insurance? Include yourself.
 - a. ____
2. Tell us about this person:
 - a. First name: _____
 - b. Middle name: _____
 - c. Last name: _____
 - d. Suffix: *(Display dropdown menu of suffixes.)*
3. Date of birth: MM/DD/YYYY
(Repeat items 2-3 for all applicants.)

VI. Family & household

Note to reviewers: The sequencing of items in this section is governed by complex logic in order to ask the fewest number of questions possible to determine both the tax household and Medicaid household of each applicant. In a conventional family living together where a tax filer parent is the household contact, there will be 6-8 questions total, depending on the ages of the children. Note the relevant year for questions about the tax household is the coverage year, so during initial open enrollment, questions would refer to 2014. For example, "Does [Household contact] plan to file a federal income tax return for 2014?" Please also note that during certain times of the year, particularly during annual open enrollment, application filers/applicants will be asked to provide certain application information for both the current year and for the coming coverage year, due to the availability of Special Enrollment Periods.

We start by creating the household composition for the household contact and only cycle through the questions again if someone listed on the applicant list above isn't in the household contact's tax household or Medicaid household. We also try to provide ways for people to continue with the application even if complete information on both Medicaid and tax household members isn't available, such as when a custodial or non-custodial parent applies and can't attest to the income of the other parent. "[FNLNS]" stands for "First name, Last name, Suffix" and indicates that the appropriate person's name would be pre-populated.

If [FNLNS] is applying for health insurance, you must provide a Social Security number (SSN) if available. If [FNLNS] doesn't have a SSN we can help [him/her] apply for one. Visit www.placeholder.gov. We only use SSNs to check income and other information to see if [FNLNS] can get help paying for health insurance. A SSN can also help with enrolling in a health plan if [FNLNS] is eligible for one.

(Display item if a household member isn't listed on the applicant list.)

Because [FNLNS] isn't applying for health insurance, you may provide a Social Security number (SSN) for [Name] if [he/she] has one. It's optional. We'll use this SSN to check [Name]'s income. This can speed up the decision about whether household members get help paying for insurance.

IX. Special circumstances

Note to reviewers: The items on disability and long-term care need were developed under the guidance of the Center for Disability and Aging Policy in the Administration for Community Living and are used to screen whether any applicant could be potentially eligible for Medicaid on a basis other than MAGI. The items on full-time students will be asked in accordance with state Medicaid agency options taken up for students in relation to household composition, maximum age of dependent children for parent/caretaker relative status, and residency rules. The items on American Indian/Alaska Native status were developed with the office of Tribal Affairs following tribal consultation and focus groups. The items on foster care are subject to upcoming CMCS rulemaking.

The items in this section are formatted to work when there’s more than one person to whom the question applies. If there’s only one person to whom the question is relevant, we would maintain the substance, but alter the format for clarity and simplicity. For example, if there’s only one applicant listed on the application, item 1 would read: “Does [FNLNS] have a disability?” with yes/no answer options.

X. Expedited income

Note to reviewers: This process was developed so some people for whom tax data is available don't need to answer questions about their current/monthly income. If the results of this section place all household members in the APTC-income range, then those tax filers would skip to go to section XIII ["Health coverage (APTC eligible): access"]. This section is subject to change based on final guidance on authentication, consent and presence of an authorized representative. Some additional authentication "challenge" questions may be asked as a part of the Income step; however we aren't providing these questions to protect the integrity and security of our systems.

(If any of the following conditions don't apply, skip this section and go to section XI ["Current/monthly income"] for each household member:

- *Medicaid household and tax household are the same*
- *IRS tax data is available*
- *Tax filer(s) isn't an AI/AN*

XI. Current/monthly income

Note to reviewers: These income questions were developed in consultation with IRS experts, based on a balance of obtaining an accurate MAGI amount while maximizing simplicity and minimizing burden on both applicants and the determination entity. Some additional authentication "challenge" questions may be asked as a part of the Income step; however we aren't providing these questions to protect the integrity and security of our systems.

(Skip this section and go to section XIII ["Health coverage (APTC eligible): access"] for a tax filer if results of expedited income section indicate that all applicants for whom the tax filer's income is being considered are in the APTC income range.)

XX. Review & sign

Note to reviewers: This section describes the summary, signature, and results pages of the application, and is more focused on displaying information rather than asking questions. These sections attempt to acknowledge differences in what information the Marketplace will provide regarding Medicaid and CHIP in both assessment and determination models, and the options individuals may have, such as the ability to raise one's hand for a full determination by the Medicaid agency on bases other than MAGI. The signature requirements are subject to outstanding policies on authentication and consent. The eligibility results are subject to forthcoming rulemaking on coordinated notices. In addition, we're continuing to create a user-friendly interface, which could result in changes to the flow and format below.

(Display item if APTC eligible. Primary Tax Filer must review and sign the APTC Attestation. Placeholder language below.)

I understand that because advance payments of the premium tax credit will be paid on my behalf to reduce the cost of my health insurance and/or health insurance for one or more of my dependents:

- I must file a federal income tax return in 2015 for the tax year 2014.
- If I’m married at the end of 2014, I must file a joint income tax return with my spouse.
- I expect that no one else will be able to claim me as a dependent on their 2014 federal income tax return.
- I expect that I’ll claim a personal exemption deduction on my 2014 federal income tax return for any individual listed on this application as a dependent who is enrolled in coverage through this Marketplace and whose premium for coverage is paid in whole or in part by advance payments.

I also understand that when I file my 2014 federal income tax return, I must reconcile the amount of advance payments actually made with the amount of any premium tax credit I’m entitled to get. I understand that if the amount of the advance payments made on my behalf is less than the amount of any premium tax credit I’m entitled to get, I may be entitled to an additional credit amount. Alternatively, if the amount of advance payments made on my behalf exceeds the amount of any credit I’m entitled to get, I may owe additional federal income tax.
